Wotshala Singh

UI/UX Designer

+ 977 9863034315 | wots.singh@gmail.com | Portfolio | Linkedin | GitHub

PROFILE

UI/UX Designer with a BCA background and hands-on Figma experience in design systems, responsive design, and prototyping. Combines design with front-end skills (HTML, CSS, JavaScript) to create clean, consistent, developer-friendly interfaces. Seeking a junior UI/UX role to grow through real user feedback.

PROJECTS

Tech Bridge Website | Figma

Self-initiated website concept for an IT training company, focusing on responsive UI/UX design.

- Created a design system with colors, typography, and reusable components for consistent layouts.
- Designed responsive desktop, tablet, and mobile screens, planning layouts and user flows with wireframes before high-fidelity designs.

Donut E-Commerce Website | Figma

Designed a multi-page e-commerce website for a donut brand as the final project for my Tech Axis UI/UX course, applying core Figma design system principles.

- Built 15+ reusable components and variants to create a scalable, consistent design system across pages.
- Created interactive prototypes to test product customization and checkout flows before finalizing designs.

Game UI Design Project | Figma

- Designed interactive interface screens for a game with clear hover, active, and disabled states for player feedback.

Additional Projects : **Interactive Donut Hero** | **Email Design Projects** | **Personal Portfolio Website**

EXPERIENCE

UI/UX Design Bootcamp | Programiz x Reduct Sept - Dec 2025

3-Month Intensive Training Program

- Completed intensive training in design thinking, user research, wireframing, and prototyping; built UI/UX case studies in Figma using design systems, components, and interactive prototypes

Yellow Lotus USA 2022 - 2023

Social Media Manager

- Designed 50+ email campaigns with A/B testing on subject lines and CTAs to improve engagement
- Created platform-specific graphics for Amazon and Pinterest within technical constraints
- Maintained consistent visual branding across email, social, and marketplace assets

SKILLS

- Design Skills: Wireframing, Prototyping, Design Systems, Components & Variants, Auto Layout, User Flows, Responsive Design, Visual Hierarchy, Email Design
- Design Tools: Figma, Canva
- Technical : HTML, CSS, JavaScript, Python, Git/GitHub
- Marketing : Email Marketing Design, Newsletter Design, Hero Banner Design, CTA Optimization
